CL Challenger Lifts

Challenger's EV Footpad kit

**Challenger's TFPK,
Supports the new
FORD Mustang
Mach-E**

"These lift pads are the solution! [T]hey provide a lot more surface area to contact the vehicle lift adaptors and the non-slip surface prevents any movement. These are perfect for this application. I shook the car vigorously from side to side and front to back and the Challenger lift pads did not move at all.... These are safe and secure providing 100% confidence."

Brian Beran

**Service Training Instructor, California TFO Market
FCSD Service Engineering Operations**

CL Challenger Lifts

MODEL # CL10V3

10,000 lb. Premium Versymmetric® Lift

MODEL # CL10V3

Boost productivity and reduce frustration with Challenger's CL10V3 2-Post lift.

Utilizing Versymmetric® Technology the 2-Post allows for servicing of a wide range of vehicles.

- *Fast & easy vehicle positioning with Versymmetric® Technology. Lift symmetrically or asymmetrically, all with one lift.*
- *Double screw up footpad for wider range of lifting and 3-Stage offset front and rear arms allow for easier vehicle positioning.*
- *Designed with heavy-duty columns, carriages, and pulleys to increase the lift's longevity.*

MODEL # CL12

12,000 lb. Premium Lift

MODEL # CL12

Challenger's 12,000 lb. capacity CL12 2-post lift maximizes your profitability with true 3-stage front and 3-stage rear arms. The CL12 can accommodate a wide range of common cars, trucks, vans as well as SUVs within the same service bay.

- *3-stage front and 3-stage rear arms accommodate a wide range of common cars, trucks, vans as well as SUVs within the same service bay.*
- *Adjustable column height accommodates higher profile vehicles and provides maximum headroom to work underneath vehicles.*
- *6" height adjustability on standard models provides allowance for ceiling obstruction, easing installation.*
- *Designed with heavy-duty columns, carriages, and pulleys to increase the lift's longevity.*
